FairAccess Asia

AI-enabled DSAR fee assessment for HR teams across Asia

Roger Lui

Data Privacy and AI Governance Lawyer

CONTEXT

DSARs from Ex-Employees

A data subject access request (DSAR) is a request from an individual for a copy of the personal data an organisation holds about them.

EXAMPLE REQUEST · EX-EMPLOYEE

01 Historic payroll records

02 Tax filing information

03 Company performance reviews

CONTEXT

Fee Rules Across Asia

China

Fees may not necessarily be allowed

Singapore

Permitted, but only under strict conditions

Regimes differ on whether a fee may be charged, which costs qualify, the standard applied, and when the fee must be notified.

CONTEXT

The Current Process

7 hours+

per DSAR

(including Privacy Lawyer researching local laws and instructing HR on fee guidelines and correspondences back and forth)

Manual every time

Local regulations checked and fees computed in Excel for each claim

Inconsistent

No reusable work product between matters or lawyers

Asymmetric risk

Over-claiming invites regulator complaints; under-claiming costs a few hundred dollars

VISION

The End-to-End DSAR Life Cycle

01

Receive

HR receives the request

02

Authenticate

Verify identity to stop scammers

03 · Built

Calculate fee

Where local law permits

04

Retrieve

APIs to Workday and other HR systems

05

Collate & review

HR and Privacy Legal

06

Despatch

Items sent to the data subject

Email
Acknowledgement

Email
Fee notice

Email
Despatch

The tool retrieves each email template; HR sends it from their own mailbox.

VISION

Human in the Loop by Design

Checkpoint 1 · Design

Privacy Lawyer approves the rules

Privacy laws and internal corporate requirements are reviewed before they are encoded

In between

AI tool automates the workflow

Every agent recommends; only a named lawyer decides

Checkpoint 2 · Output

Lawyers and GRC review drafts

Nothing reaches the data subject before sign-off

FAIRACCESS ASIA

What FairAccess Asia Determines

01 Can a fee be charged?

02 Which expenses qualify?

03 How much may be passed to the requestor?

04 Can access be conditioned on payment?

Deterministic, jurisdiction-specific rules, reviewed by a Privacy Lawyer and encoded in Claude Code

FAIRACCESS ASIA

From Regulator Guidance to Rules Pack

Source

Public guidance from privacy regulators

Singapore, Australia and other jurisdictions

Agent

Extracts fee rules

Translates legal text into a practical workflow

Privacy Lawyer

Reviews and approves

Human in the loop at the design stage

Claude Code

Encoded in a versioned rules pack

Each rule cites its author and version

FAIRACCESS ASIA

Chargeable and Non-Chargeable Costs

Chargeable

Retrieving documents

Copying records

Staff time for retrieval

Third-party vendor retrieval, e.g. ADP for old payroll files

Excluded

Law firm advisory fees on how to respond

Overhead costs

Flagged for Privacy Legal

Repairing a defective database needed to retrieve a record

FAIRACCESS ASIA

Deterministic Expense Baskets

20+

expense categories automated

Routine items

Assessed by deterministic, lawyer-approved rules

Residual items

Forwarded verbatim to the in-house Privacy Lawyer

Role of the LLM

Transmits outliers of borderline or ambiguous expense claims; never interprets them or does arithmetic

FAIRACCESS ASIA

Privacy Legal Review of Every Expense Claim

HR

Itemises claimed costs

→

Engine

Applies the rules pack

→

Privacy Legal

Decides each line and signs off

→

HR

Sees the fee and draft notice

HR never sees a draft figure before a named lawyer signs off.

DEMO · SINGAPORE · 1 OF 3

The Claim and the Engine's Assessment

#	Cost line	Claimed SGD	Engine result
1	Staff time locating and retrieving records	160.00	Supported · 160.00
2	Staff time compiling the response	80.00	Supported · 80.00
3	Staff time deciding what to withhold	120.00	Not supported · 0.00
4	Photocopying, 220 pages	33.00	Capped · 26.40
5	Payroll archive vendor, invoiced	450.00	Flagged · materiality
6	Something else: miscellaneous cost	45.00	Flagged · referred to Privacy Lawyer
7	Something else: locksmith for locked cabinet	60.00	Flagged · referred to Privacy Lawyer
	Total claimed	**948.00**	**Supported by rules · 266.40**

DEMO · SINGAPORE · 2 OF 3

Privacy Lawyer Decides the Flagged Lines

SGD 555.00 across 3 lines needs a lawyer's decision. Each departure from the engine requires a written reason.

Line 5 · Payroll vendor

Allow 450.00

Invoice recorded, so only materiality remained for the Privacy Lawyer

Line 6 · Miscellaneous

Strike

Description too vague to support a charge

Line 7 · Locksmith

Strike

Not justifiable to charge for repairing defective lock

DEMO · SINGAPORE · 3 OF 3

Sign-off and Draft Notice

Fee assessed

716.40

SGD · of 948.00 claimed

Supported by rules	266.40
Allowed by the lawyer	450.00
Struck or not supported	231.60

DRAFT — for HR to send

HR sends the notice from their own mailbox

Privacy Lawyer sign-off gate and audit trail

Internal assessment record (PDF)

Next, with IT support

Running Postgres database server that the app can connect to

Counsel-approved packs for APAC jurisdictions

Workday APIs and email templates

LEVERAGING THE LATEST AI AGENTS

Innovation

Efficient

Repetitive work moves off the Privacy team

Consistent

Local jurisdiction rules are encoded, not applied at whims

Transparent

Every figure traces to a rule or a lawyer's decision

01
Extracts regulator guidelines

02
Classifies legitimate costs

03
Excludes non-chargeable items

04
Every claim goes through human-in-the-loop legal review

Reducing repetitive work and lowering compliance risk across APAC (and beyond)
